IN ADVANCE.

Born a Genius

Disease Threatens to Cut Short a Noble Career

But Hood's Sarsaparilla Restores Good Health.

Little May Bentley is an accomplished student and natural born speaker of only 12 years of age. She is the only child of temperance parents.

Continued to Grow Wiser.

I was persuaded finally by a friend to try Hood's Sarsaparilla. The use of one bottle effected a cure.

Hood's Sarsaparilla Cures

Effectively upon the blood and I began to improve. After the use of three bottles the gathering around me and I am cured of my former trouble.

DEMOREST MEDAL.

Won by Miss McLain, With George Cox Second.

The contest for the Demorest medal took place at the Y. M. C. hall Saturday evening. About 300 people were present.

The contest was under the supervision of Mrs. E. W. Jordan. Miss Parrot, Prof. Hostmer and Mr. Corbett acted as judges.

Misses Grace Buchanan, Annie McLain and Rice, Joseph Smith and Oscar Cox were the competitors. All of the recitations were good.

Miss McLain's rendition was especially bright and pleasing. She received the first prize, the beautiful medal.

The second prize, the book, was awarded to George Cox. A musical feature of the evening was a cornet duet by Messrs. Jones and Chas. Kreuter.

Bachelors Won.

The contest between the bachelors and benedictines of the Sharpshooters Company at the H. R. A. range Saturday afternoon was very close and a decidedly interesting one.

It was ten men to the side with ten shots each. The score resulted in a victory for the bachelors, standing 416 to 401.

Central Union Sabbath School.

Just before the morning discourse at Central Union church Sunday, Rev. Mr. Birnie announced the attendance upon the Sabbath school for the month of April.

"The figures," said the preacher, "are very interesting, as they show a steady increase from week to week." The figures announced were as follows: April 7, 465; April 14, 499; April 21, 523; April 28, 529.

VALUABLE HOUSE LOTS

FOR SALE.

We offer some very choice lots on the premises formerly owned by J. A. Hasinger, Esq., located between Penacola and Piliol streets. These lots are of uniform size, 80x120, which is as large as most persons like to have the care of.

The soil is very rich and there are many well grown fruit and ornamental trees on all of the lots.

If you want a home in a good, quiet, respectable and healthy neighborhood take one or more of these lots which we offer at reasonable prices and upon easy terms as to payment.

FINE SCORES MADE.

TALL TEAM SHOOTING FOR THE PRIZE RIFLE.

First Honors for E-D Banks Second—The Scores—Trial of Ten Sharpshooters

The second shoot for the prize rifle of the Winchester Repeating Arms Company took place at Makiki Saturday afternoon. Company E won by a twelve-point lead on Company D, the two teams acknowledged to be the actual competitors.

Shooting was good, though several marksmen fell below their averages. Private J. A. Johnson of Company D, who has a score of 42, only made 36. Several men of Company E fell down. E shot well straight through.

The score by Companies was as follows:

Company E—Captain Jno. Good, 44; Private A. W. Neely, 45; Private C. B. Lohman, 43; Private H. Dunbar, 43; Private A. Buchanan, 41; Corporal H. A. Taylor, 38; Second Lieutenant G. W. R. King, 43; Private J. Goniva, 41; Sergeant C. Elvin, 42; Private J. W. Sprout, 42. Total 422.

Company D—Captain W. C. Wilder, Jr., 41; Corporal R. A. Dexter, 39; Private Drummond, 42; Corporal W. P. Johnson, 43; Private J. A. Johnson, 36; Private H. Wilder, 41; Private W. P. Boyd, 42; Private L. M. Johnson, 40; Private F. Clay, 43; Corporal P. H. Burnett, 43. Total 410.

Company F—First Lieutenant H. Ludewig, 41; Second Lieutenant L. A. Burgett, 41; Private S. Johnson, 41; Sergeant J. H. McKeague, 41; Private R. Duschalsky, 42; Private H. Vullberg, 40; Private L. Meyers, 36; Private H. M. Reade, 40; Private R. Freidendorf, 40; Private Wm. Peterson, 35. Total, 398.

Company B—First Lieutenant L. T. Kenace, 29; Captain Oscar White, 39; Private E. Oleeson, 36; Corporal D. F. Thrum, 34; Private W. Thrum, 33; Sergeant H. Giles, 36; Private C. Schmidt, 25; Private T. H. Petrie, 19; Corporal W. C. Weedon, 35; Private C. H. Pfeiffer, 17. Total, 353.

For the second time Company E won the prize rifle. One more success and they become the owners of it. The team went up one point on last year's score. It is said that E has better shots now than ever before. The final shoot will take place in August. If Company E wins, the contest will be settled, but if not it will go on as a company must win the rifle three times before it can be claimed.

Saturday morning the Sharpshooters selected a team for a record. The score of the team is as follows:

Walter E. Wall, 47; H. W. Peck, 44; A. C. Wall, 44; F. B. Damon, 44; J. L. McLean, 44; F. S. Dodge, 41; O. E. Wall, 41; J. Kidwell, 40; D. W. Corbett, 40; J. D. McVeigh, 39. Total, 424.

Damon in practice made 45 three times and 44 once. Corbett's "last score as a bachelor" was 44.

KRAJEWSKI CANE CRUSHER

We beg to draw the planters attention to this machine for which we claim the following advantages:

THE CRUSHER will cut the cane transversely in pieces about 3 inches long and extract about 50 per cent. of the juice and deliver the crushed cane in a uniform layer to the 3 roller mill, thereby causing a perfect feed and increased extraction of juice.

THE CRUSHER will leave the "skin" on the cane, thereby giving the juice a better chance to be expelled than if the cane was ripped open subjecting the pulp to the hard picking on the returner bar of the 3 roller mill.

THE CRUSHER will save labor in handling of the cane, as an irregular distribution of cane on the carrier will not materially effect the regular and even feed to the 3 roller mill.

THE CRUSHER will not require additional steam or boiler power, as it has been demonstrated in actual practice, that the increased extraction of juice has improved the trash as fed so as to fully make up for the additional use of steam to drive it.

THE CRUSHER is strongly built, the rollers are made of solid steel rings on the shafts. The pinions are all of steel and the spurwheel is provided with segment rim. Its speed is about the same as the mill rollers, thereby giving comfort and safety in running. It is so constructed, that should iron parts, such as bolts, ear coupling links and pins, come loose, etc., go through, it will not injure any of the parts.

The following are testimonials from plantations where the crusher at present is at work:

TESTIMONIALS:

Increased amount of daily work. Owing to the limited capacity of our boiling house we have to drive the Crusher slow, but if necessary could do 15 to 20 per cent. more work with it.

Increased amount of daily work. Owing to the limited capacity of our boiling house we have to drive the Crusher slow, but if necessary could do 15 to 20 per cent. more work with it.

NATIONAL CANE SHREDDER.

Patented under the laws of the Hawaiian Republic.

One of these Shredders has recently been installed at the mill of the Paahau Plantation Company, Hanalei, Hawaii, and Mr. Andrew Moore, the manager, writes concerning it

PAHAU PLANTATION CO.,

HANALEI, HAWAII.

Wm. G. Irwin & Co., Ltd., HONOLULU.

GENTLEMEN: The mill has been running during the past two weeks, with the National Cane Shredder lately installed, giving the most satisfactory results.

Our mill consists of three sets of two rollers, 24 in. dia. by 72 in. long, the shredder dies being 5 ft. 7 in. long, driven by an automatic engine 11 in. dia. cylinder by 14 in. stroke.

The shredder came being milled is as hard as it is possible for cane to be, having been subjected to a severe drought during the last period of growth, and growing on land with a trade wind exposure. Our experience with the shredder, particularly with the shredder, has been most satisfactory.

The shredder is strongly built, the rollers are made of solid steel rings on the shafts. The pinions are all of steel and the spurwheel is provided with segment rim. Its speed is about the same as the mill rollers, thereby giving comfort and safety in running. It is so constructed, that should iron parts, such as bolts, ear coupling links and pins, come loose, etc., go through, it will not injure any of the parts.

The following are testimonials from plantations where the shredder at present is at work:

Increased amount of daily work. Owing to the limited capacity of our boiling house we have to drive the Shredder slow, but if necessary could do 15 to 20 per cent. more work with it.

Increased amount of daily work. Owing to the limited capacity of our boiling house we have to drive the Shredder slow, but if necessary could do 15 to 20 per cent. more work with it.

Increased amount of daily work. Owing to the limited capacity of our boiling house we have to drive the Shredder slow, but if necessary could do 15 to 20 per cent. more work with it.
